

# Advanced Smile Care

Advanced Smile Care Patients,

In accordance with Governor Abbott's Executive Order GA-09 dated March 22, 2020 Advanced Smile Care will be closed for all elective and non-emergency dental treatment due to the Coronavirus outbreak. The order currently extends until April 21, 2020.

The Advanced Smile Care team will only perform dental care which is medically necessary to correct a serious medical condition, preserve the life of a patient, and care which if unaddressed, would cause a patient to seek care at a hospital emergency room or urgent care center.

Dental emergencies which may fall into this category include issues involving significant pain, excessive bleeding, a fracture causing severe pain, and swollen gums.

If you believe you are currently experiencing a dental emergency call Advanced Smile Care at 210-366-3606, and I will evaluate your dental care needs.

Our team looks forward to resuming full dental services as soon as we can.

Please be safe out there,  
Tony Thomas, DDS
